

# How to Design a Headstone

*All costs are plus cemetery fee: \$328.00*

## Step One: Choose your colour and shape

All headstone shapes can be made in all granite colours.

The larger and thicker the headstone, the more expensive.

Bases come in two standard sizes, but may be altered upon request.

All headstones are a minimum 75mm thick for extra strength.

Book style monuments sit on pedestals.

## Step Two: Accessorise

The average cost of accessories on a headstone is \$1000.00 ex GST.

You can choose vases, crosses, Crucifixes, photos, frames, statues and other bronze wear.

You can also choose to have custom carvings in the granite.

These are priced individually.

## Step Three: Writing

You can choose to have writing on the base and on the headstone.

All writing material is the same price, except for gold leaf and lead.

Base writing is more expensive than headstone lettering.

### *Example of Options*

Surname on base (approx)	\$84
Engraved cross	\$80
120 letters on panel at \$2.70 each	\$324
9x12cm ceramic photo with frame	\$260
2 sunken vases	\$140
<b>Total including GST</b>	<b>\$976.80</b>
